

Wallace Altes, Chairman
Andrew Ross, Vice Chairman

Bill Dunne
Ken Zalewski
Andrew Torres, Ph.D.

**TROY LOCAL DEVELOPMENT CORPORATION
Board of Directors Meeting
Planning Department Conference Room**

**City Hall
433 River Street, Suite 5001
Troy, New York 12180**

**January 11, 2013
8:30 a.m.**

AGENDA

- I. Approval of the Minutes from the December 10, 2012 and December 21, 2012 meeting.
- II. New Business
 1. We Live NY Grant Application
 2. 9 First Street
- III. Old Business
 1. Bomber's Bridge Loan

**TROY LOCAL DEVELOPMENT CORPORATION
Board of Directors Meeting Minutes
December 10, 2012
9:00 a.m.**

BOARD MEMBERS PRESENT: Wallace Altes, Chair, Bill Dunne, Andrew Ross, Andrew Torres Ph.D., and Ken Zalewski

ABSENT:

ALSO IN ATTENDANCE: Justin Miller, Esq., Monica Kurzejeski, Joe Mazzariello, Selena Skiba, Denee Zeigler

Minutes

Wallace Altes called the meeting to order at 9:00 a.m. and advised that they were meeting as a committee of the whole.

- I. Approval of minutes from the November 19, 2012 meeting.

**Andrew Torres made the motion to approve.
Andrew Ross seconded the motion to approve, motion carried.**

- II. New Business

1. Annual Board Performance Review and ABO Compliance.

Justin Miller Esq. spoke to the board about end of the year reports, surveys and audits that are due. The chairman asked that the board complete the performance review sheets as soon as possible so they may be tallied by the Governance Committee and forwarded to the ABO.

Justin also informed the board members of the upcoming Compliance Review by the ABO. A copy of the Compliance Review Process was distributed to the board members.

2. Leonard Hospital, Bomber's and The Neitzel Building

A general discussion took place about Bomber's bridge loan deadline of December 31, 2012. The board decided to add Bomber's to the next agenda in order to discuss their options further.

Justin Miller made a motion to move to executive session to discuss the proposed acquisition, sale or lease of real property or the proposed acquisition of securities, or sale or exchange of securities held by such public body.

**Ken Zalewski made a motion to move to executive session.
Bill Dunne seconded the motion, motion carried.**

**Wallace Altes made a motion to leave executive session.
Andrew Torres seconded the motion, motion carried.**

3. Economic Development Program

Monica Kurzejeski talked about possible funding for future economic development plans. She is working with Joe Mazzariello to determine if funds could be added in for the next year. She wants to establish clear objectives for the program.

III. Old Business

1. Parking Committee

Monica Kurzejeski spoke to the board about an upcoming Chamber of Commerce meeting that will take place next week regarding parking issues. The meeting will be held at City Hall.

IV. Adjournment

The board decided to hold a special meeting to discuss the LDA for Vecino Group (444 River Street) before the end of the year. The board agreed on Friday December 21, 2012 at 9:00 a.m. in the conference room.

The Chairman proposed to the board that the meeting day be changed in the upcoming year in order to allow more time to discuss the agenda items. A discussion took place by the board and it was decided to change the meeting dates from Monday to Friday. The first meeting will be on Friday January 11, 2013 at 9:00 a.m. in the planning department conference room.

**Ken Zalewski made the motion to adjourn the meeting.
Andrew Ross seconded the motion, motion carried.**

**TROY LOCAL DEVELOPMENT CORPORATION
Board of Directors Meeting Minutes
December 21, 2012
9:00 a.m.**

BOARD MEMBERS PRESENT: Wallace Altes, Chair, Bill Dunne, Andrew Ross, Andrew Torres Ph.D., and Ken Zalewski

ABSENT:

ALSO IN ATTENDANCE: Justin Miller, Esq., Monica Kurzejeski, Denee Zeigler

Minutes

Wallace Altes called the meeting to order at 9:00 a.m.

- I. Review of minutes from the December 10, 2012 meeting. The board reviewed the minutes and moved to table the approval until some corrections could be made.

Andrew Torres made the motion to table.

Andrew Ross seconded the motion to table, motion tabled.

- II. LDA for Vecino Group

Justin Miller spoke about the LDA with Vecino Group. The LDA states that Vecino Group will have primary rights to develop their project at 444 River Street along with an additional parcel at 88 King Street. Vecino Group will have an exclusive option to acquire the secondary parcels that surrounded the property.

The Chairman questioned if there were any structures on the secondary parcels. Bill Dunne shared a parcel map of the area with the board members and indicated that two parcels do have structures on them. Justin also explained that Vecino Group will have about one year to get hard financing in place before they come to us to purchase. A deposit will be given of \$20,000 to be held until that time. Andrew Ross questioned if it was non-refundable. Justin explained that only if the sixth months go by or they have financing in place.

Monica has discussed with the current tenants of 444 River Street the possibility of the building changing ownership within the next six months. She also walked through the building with a structural engineer and was given the okay that the building is sound.

The Chairman questioned the timeline. Justin and Monica advised the building should be ready to rent within the next 1 ½ - 2 years.

Ken Zalewski questioned if there would be any traffic disruptions while the building is being worked on. Andrew Ross advised that once they own the building and begin work, they would be dealing with the City at that point with permits.

Members of the board said they were excited about this project and they were glad it was moving along. They also agreed that they were glad to see some interest from a developer from outside the City.

The Chairman thanked Monica Kurzejeski for her hard work on the project.

The board reviewed the attached resolution authorizing the execution and delivery of a land disposition agreement with the 444 River Lofts, LLC and the acquisition of certain parcels of land from the City of Troy, New York.

**Andrew Ross made a motion to approve the resolution.
Ken Zalewski seconded the motion, motion carried.**

III. Old Business

The board discussed the status of several properties.

Monica Kurzejeski spoke about meeting with interested developers to discuss 9 First Street.

The Mooradian's building on River Street is currently on the market.

The Marshall Ray building is in the process of asbestos removal and being winterized. Bill Dunne mentioned that the parcel of land behind the Marshall Ray building that has also been discussed because it is connected to the proposed Ingall's Ave boat launch site.

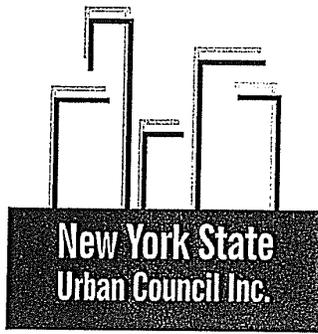

The Trojan Hotel and Broadway News were also discussed briefly.

Bill Dunne mentioned he will reach out to Boilerworks.

IV. Adjournment

The next meeting will be on Friday January 11, 2013 at 8:30 a.m. in the planning department conference room.

**Ken Zalewski made the motion to adjourn the meeting.
Andrew Torres seconded the motion, motion carried.**

**LETTER OF AGREEMENT
BETWEEN
THE TROY LOCAL DEVELOPMENT CORPORATION
AND
TECH VALLEY CENTER OF GRAVITY**

PURSUANT TO ROUND 5 OF THE "WE LIVE NEW YORK" APPLICATION

This agreement, as articulated herein, explains the relationship and role of each party pursuant to the referenced funding program.

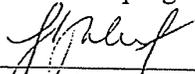

The Troy Local Development Corporation (TLDC) will:

- Serve as the not-for-profit partner to the proposed project.
- Serve as fiscal agent and perform all necessary ministerial tasks.
- Provide, upon a full vote of the TLDC Board on January 11, 2013 and approval of the funding application, a \$3,000 cash match to the project.
- Undertake all grants management related tasks.
- Provide technical assistance, as appropriate, to the project.

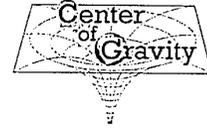

William Dunne
Troy Local Development Corporation

The Tech Valley Center of Gravity, Inc., a not-for-profit corporation under the laws of New York State, will implement the NEXUS project. The Center of Gravity will:

- Undertake all direct implementation activities related to the project
- Ensure the availability of all remaining project funds
- Coordinate with all relevant stakeholders
- Assure sustainability of NEXUS project
- Make progress reports, as appropriate, to the TLDC

Laban Coblentz
Center of Gravity

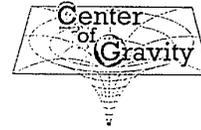

NEXUS - Project Description

NEXUS is a tool under development that will enhance the ability of young professionals to secure the resources necessary to advance their business or non-profit enterprises. It combines face-to-face networking with an online service that facilitates the match-up of needs to resources. By design, NEXUS is geographically centric: it raises awareness of local and regional assets, leverages existing strengths, and stimulates the integration of complementary efforts. The initial focus will be Troy, New York, Rensselaer County, and the Capital Region; however, once the approach is perfected, it can be replicated for any location.

Background: NEXUS is one of several projects initiated under the umbrella of the Tech Valley Center of Gravity, Inc. ("Center of Gravity"), a New York State not-for-profit corporation. The stated purpose of the Center of Gravity is to support young professionals and entrepreneurs, with a particular focus on technology-based start-up businesses. Other Center of Gravity projects include: (1) a Do-It-Yourself prototyping and light manufacturing center in downtown Troy (e.g., for metalworking, woodworking, 3D printing, and other equipment); (2) informal gatherings, staged in a different Troy restaurant each week, in which presentations on new technology and other topics of interest are followed by opportunities to socialize, network, and collaborate on ideas; (3) an intellectual property valuation service; and (4) a multi-sector effort to identify opportunities to place young people in positions of leadership in municipal government, professional organizations, and community-based organizations.

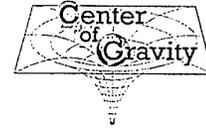

NEXUS dovetails with and supports each of these other projects - and each project provides opportunities to recruit NEXUS members. Undifferentiated members join simply out of interest, to gain access to the NEXUS network. However, as they become familiar with the approach, members are encouraged to describe themselves in terms of their needs (e.g., a detailed description of a project) or the resources they are willing to contribute (e.g., funding, specific expertise, equipment, labor, or in-kind contributions). Project leaders are prompted to be specific in describing their needs: for example, a detailed breakdown of how funding will be used; precise equipment needs; clear success metrics; and/or certain types of expertise being sought. Similarly, NEXUS members who offer resources are prompted to be specific about what is available: for example, any restrictions on how funding can be used; the timing and duration for providing the resource; and/or any associated costs. The NEXUS software then identifies matches between needs and resources. NEXUS administrators actively identify these matches and encourage collaboration that will advance the objectives of a given project.

Current Status: the Center of Gravity has been recruiting members for approximately two months, with enthusiastic responses from across the community. In many cases, young professionals are already becoming aware of assets they did not know existed. Examples include: retired CEOs offering mentoring services; a local photo center offering access to darkroom equipment, matting tools, and personalized training; financial workshops offered by the local Business Improvement District; unused wet lab space at a university-based business incubator; a retired university VP offering help with fundraising; discounted or pro bono legal services to assist in securing intellectual property; and a tool library under development by a community arts collective. These responses – as well as direct pledges of funding, subsidies, and in-kind contributions – are coming from every sector: public and private; for-profit companies (large and small) and not-for-profit community groups; financial, legal, and other specialized services; university based research centers and academic experts, etc.

The next step is to design and test the NEXUS software. The basic design of the software has been laid out and gradually refined, based on analysis of emerging projects and resources. Over the next two months, software programmers and developers will further shape the NEXUS architecture, bring it online with a limited membership, and test and refine the approach in preparation for a full launch.

As detailed in the attached budget, the funding from the Livable Communities Capacity Grant Program, in conjunction with matching funds from the Local Development Corporation of the City of Troy, will make a significant contribution toward enabling NEXUS to move forward with final design, testing, and launch. In so doing, the Center of Gravity and its partners will be able to use the NEXUS approach to support the energy, creativity, intelligence, and leadership skills of our young professionals. The Capital Region has long been known for its success in attracting outstanding students to its community colleges and its world-class public and private universities. By bringing NEXUS online, in conjunction with the other Center of Gravity initiatives, we will now be able to retain and support our university graduates – as inventors, entrepreneurs, business professionals, and community leaders.

NEXUS - Meeting Priorities of Livable Communities Capacity Grant Program

1. Viability and Sustainability of the Organization Applying:

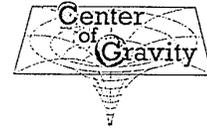

NEXUS is one of several projects initiated under the umbrella of the Tech Valley Center of Gravity, Inc. ("Center of Gravity"), a New York State not-for-profit corporation. The Center of Gravity was conceived in Fall 2011 as a community-based approach to supporting young professionals and entrepreneurs in Troy, Rensselaer County, and the Capital Region. Initial funding and sponsorship for NEXUS and the Center of Gravity was provided by the Rensselaer County Independent Development Authority. Additional sponsorship and pledges of support have rapidly come from multiple public and private sector organizations. Supporting organizations include: the City of Troy, New York; the Troy Local Development Corporation; Atrium Services (a local property management company); Hudson Valley Community College; Tech Valley Connect; and the Downtown Troy Business Improvement District. Commitments of support have also been pledged by: the Center for Economic Growth; Eastern New York Angels (an angel investment fund); NY-BEST (the New York Battery and Energy Storage Technology Consortia); the Rensselaer Polytechnic Institute Office of Research; local companies such as Ecovative, First Playables, and Proctor's Schenectady; and a broad range of accomplished local and regional professionals with relevant expertise.

The Center of Gravity is led by a group of young professionals based in Troy and Rensselaer County, most of whom are graduates of RPI or other local universities with degrees in business, engineering, and the sciences. The group is mentored by Laban Coblentz, a former RPI executive with extensive background in mentoring and the design and oversight of entrepreneurship programs; and Richard Frederick, also a seasoned entrepreneur with a strong record of mentorship in academic and small business enterprises.

The NEXUS project is headed by Alisha (Lee) Sharma and Anasha Cummings, both young professionals living in Troy, both with an established record of community activism and leadership. NEXUS will also be supported by Troy Web Consulting, a local firm with expertise in software and web design.

As a grassroots, community-based organization, the Center of Gravity has rapidly built an engaged, committed membership. All members of the Center of Gravity leadership, as well as multiple individuals from support organizations, have been engaged in the conceptualization and design of NEXUS.

The Center of Gravity is applying for assistance through the We LIVE NY Livable Communities Capacity grant program because of the direct overlap between the stated objectives of the grant program with those of the Center of Gravity.

2. Advance Regional Efforts to Attract and Retain Young Talent:

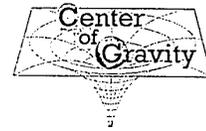

Each of the projects initiated by the Center of Gravity has been formulated during brainstorming sessions with groups of young professionals based in Troy, Rensselaer County, and the Capital Region. These brainstorming sessions have been single-mindedly driven by a recurring theme: how to create a “center of gravity” to attract and retain young professionals in the New York Capital Region. Three guiding principles have emerged from these sessions: (1) to leverage existing resources (i.e., rather than duplicating efforts that already exist); (2) to raise awareness of local and regional assets (i.e., increasing the visibility of what the region has to offer that can serve the needs of young professionals); and (3) to match emerging needs with existing resources. Each of the resulting projects has been created to fill a gap: that is, to address “something missing” in the region, a need which, if filled, would make young professionals feel more supported.

The NEXUS project is envisioned as the “glue” that will connect all of these projects to each other, and to existing regional assets and resources. The core concept of networking and raising awareness is not new; it is a characteristic piece of efforts in many regions to attract and support young professionals. But three aspects of the NEXUS design are unique: first, the premise that face-to-face networking and social/professional interaction can be *leveraged* – *not replaced* – by an online networking tool; second, that the networking should be geographically centric (beginning in Downtown Troy), reinforcing the “center of gravity” concept; and third, that the match-up of needs to resources should be project-based, with discrete allotments of resources devoted to meeting specific project objectives.

The impact of these efforts will be measured in two ways: quantitatively, by tracking the growth of membership in NEXUS and other Center of Gravity projects; and qualitatively, by publicizing success stories that result from use of NEXUS. The latter approach has a secondary objective: successes are analyzed and played back into the system so that success can be replicated. Although the NEXUS project is still in its infancy, examples of success already exist.

3. Make a Positive Impact on the Local Economy:

The objective of positive economic impact is at the heart of the Center of Gravity and NEXUS – a primary reason that the initial funding for the Center of Gravity came from the Rensselaer County Industrial Development Authority, and that partnerships have emerged so rapidly with the City of Troy, the Local Development Corporation, the Downtown Troy Business Improvement District, and local companies and community organizations with a presence in downtown Troy. By designing NEXUS to be geographically centric, the projects: (1) use local resources as a priority, thus supporting local businesses (e.g., the local hardware store, local law and accounting firms, the local photo center); (2) raise awareness

of local assets that have not been well advertised previously; (3) take advantage of the infrastructure in downtown Troy (e.g., vacant space with low rental rates; broadband wireless access; workshops offered by the Business Improvement District). Many of the projects are technology-based start-up companies at various stages of growth, and the design of NEXUS and the other Center of Gravity projects automatically encourages these companies to locate their enterprises in downtown Troy, in proximity to the assets and resources being made available. The express intent of these project aspects is to support the revitalization of the central business district.

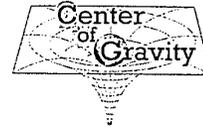

4. Promote Community Development by Working in Conjunction with Other Programs:

As stated earlier, the guiding principles underlying the Center of Gravity and NEXUS seek to leverage and take advantage of – rather than to replicate – the assets and resources that already exist within the local community and region. Our initial research identified multiple instances in which existing community organizations and programs had overlapping objectives, but were “stove-piped” with limited awareness of each other. NEXUS expressly encourages the integration of overlapping efforts.

The Center of Gravity has reached out to – and received positive responses from – multiple community organizations and programs. These include: the Downtown Troy Business Improvement District (BID); the Community Arts Collective (CAC); the Troy Rehabilitation and Improvement Program (TRIP); the Troy Center for the Arts; the Troy Neighborhood Action Council (TNAC); Tech Valley Connect; the Center for Economic Growth (CEG); the Rensselaer County Chamber of Commerce; and the city and county government entities already discussed. In multiple instances, the Center of Gravity is already leveraging and raising awareness of these organizations – particularly among young professionals. NEXUS will significantly enhance our capacity to leverage these assets.

The new constituency being engaged with these efforts is the young talent in Troy, Rensselaer County and the Capital Region. Our early research identified young people running start-up companies – including highly technical enterprises – from their basements and living rooms. We found young professionals working in established local and regional companies who said they had no place to fit in – the country clubs did not cater to their demographic, and the social, professional, and entertainment venues of the region offered little to match their tastes or interests. Ironically, for a region that excels in attracting outstanding students to its universities and providing an exceptional level of education, the perceived “centers of gravity” were *only* to be found on the university campuses; after graduation, these young people found support mechanisms to be few and far between.

The Center of Gravity and NEXUS are designed to target and support this constituency. This includes explicit efforts to identify opportunities for leadership for young talent – in

community organizations, professional societies, and local and municipal government programs.

5. Encourages Civic Engagement and Community Service:

This objective has largely been covered in earlier discussion. However, it should be emphasized that the Center of Gravity and NEXUS, in actively recruiting new members, will be reaching out - by design - to all parts of the local community. By deliberately raising awareness of needs, and by seeking to identify the resources to meet those needs, NEXUS will encourage civic engagement and community service. Companies and individuals who join as NEXUS members are encouraged to evolve in how they identify themselves as members; an individual who joins based on the needs of his or her project, for example, will also be encouraged to contribute resources (e.g., specialized expertise, mentoring, labor) that can meet the needs of other members. Because community service organizations are also NEXUS members, this networking and teambuilding will naturally lead to increased engagement in community service by young professionals and others.

6. One-To-One Match of Grant Funds -- Separately enclosed.

7. Foster Artistic and Cultural Events:

As noted above, the NEXUS membership includes local and regional arts organizations. NEXUS will raise awareness not only of financial resources and technical expertise, but also of resources and projects that have an artistic and cultural aspect. For example: while the Center of Gravity is developing a Do-It-Yourself center focused on technology projects (i.e., providing access to metalworking, woodworking, 3D printing, and other equipment), it is also partnering with the Troy Center for the Arts (which offers access to a kiln, as well as classes on ceramics and other art forms), the Photo Center of Troy (which offers access to a darkroom, matting equipment, training, etc.), the Community Arts Collective, and other such organizations. By their inclusion in NEXUS, these organizations will increase their membership and the local awareness of their offerings - including the events they sponsor.

In many cases, these initiatives will stimulate a direct crossover of artistic talent with engineering and scientific talent. Artists are already expressing interest in gaining access to the woodworking, metalworking, and 3D printing equipment at the Do-It-Yourself center. The Center of Gravity and the Community Arts Collective are collaborating on the creation of a "tool library" for members. Teambuilding in start-up companies will seek talent of all types. The weekly gatherings of young professionals under the Center of Gravity initiative also serve as social events. NEXUS will serve as a forum to raise awareness of all of these aspects, including artistic and cultural events.

NEXUS – Project Budget**

	No. of Hours	Cost/ Hour	Subtotal	Total
1. Project Management	120*	\$25	\$3,000	\$3,000
2. Software				\$7,800
- Licensed Software			\$1,500	
- Software Development	180*	\$25	\$4,500	
- Specialized Programming/Graphics	30*	\$60	\$1,800	
3. Testing	30*	\$25	\$750	\$750
Total				\$11,550

*All labor costs involve significant donations of uncharged time based on pledges from NEXUS project managers, developers, and programmers. Most labor costs have been calculated based on charging for half of the estimated hours required.

** The reviewer is advised that the project funding structure contains no speculative features. The award of \$3,000 from the We LIVE NY Livable Communities Capacity Grant Program, plus matching funds of \$3,000 from the Local Development Corporation, will be leveraged by already committed sources of cash and in-kind services that will underwrite all remaining project costs.

NEXUS – Project Timeline

Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
Key Milestones							
^Kick-off		Design complete^			Software complete		^Testing complete ^Launch
Complete analysis of prospective NEXUS member profiles and modes of interaction							
^Complete design of NEXUS architecture							
^Acquire all necessary software and licenses							
		Complete programming and software development					
		Complete and integrate graphic design					
		Compose and prepare testing pool					
		Complete software testing					
		Final adjustments					
							Launch public website

CERTIFICATION FORM

READ BEFORE SIGNING

I, LABAN L. COBLENTZ HEREBY CERTIFY THAT I/WE AM/ARE THE REPRESENTATIVE OF THE YPO IDENTIFIED IN THIS APPLICATION.

I UNDERSTAND THAT NO WORK IS TO BE STARTED UNDER THE WE LIVE NY LIVABLE COMMUNITIES CAPACITY GRANT PROGRAM UNTIL I AM GIVEN WRITTEN AUTHORIZATION FROM THE NEW YORK STATE URBAN COUNCIL. I FURTHER ACKNOWLEDGE THAT THE LIVABLE COMMUNITIES CAPACITY GRANT PROGRAM, THE NEW YORK STATE URBAN COUNCIL, AND WE LIVE NY ARE IN NO WAY RESPONSIBLE FOR ANY DEBTS RESULTING FROM WORK COMMENCED PRIOR TO RECEIVING WRITTEN AUTHORIZATION.

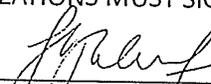

I UNDERSTAND THAT THE MAXIMUM GRANT AWARD IS \$3,000 PER APPLICANT, HOWEVER, I MAY RECEIVE AN AWARD THAT IS LESS THAN THIS AMOUNT. I WILL NEED TO PROVIDE A 50% MATCH TO ANY FUNDS GRANTED TO ME SO THAT THE GRANT COVERS A MAXIMUM OF 50% OF THE TOTAL PROJECT COST. ANY COSTS IN EXCESS OF \$6,000 ARE MY FULL RESPONSIBILITY.

I UNDERSTAND THAT A PARTNERSHIP WITH A NOT-FOR-PROFIT ORGANIZATION MUST EXIST BEFORE PROJECT ACTIVITIES MAY COMMENCE. I UNDERSTAND THAT THE NAMES OF LIVABLE COMMUNITIES CAPACITY GRANT RECIPIENTS ARE PUBLIC RECORD. I AGREE TO ALLOW THE NEW YORK STATE URBAN COUNCIL, WE LIVE NY AND EMPIRE STATE DEVELOPMENT CORPORATION THE RIGHT TO USE MY/OUR NAME(S) AND PICTURES OF MY/OUR PROJECT AND ACTIVITY FOR PUBLICITY PURPOSES.

I UNDERSTAND THAT THIS PROGRAM IS A REIMBURSEMENT PROGRAM AND THAT I NEED TO SHOW PROOF OF AVAILABLE FUNDING BEFORE ANY CONTRACTS MAY BE SIGNED.

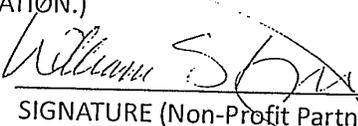

I HEREBY CERTIFY THAT ALL INFORMATION I HAVE PROVIDED IN AND WITH THIS APPLICATION IS COMPLETE, TRUE, AND CORRECT.

I HAVE READ THE ABOVE STATEMENTS AND AGREE TO ABIDE BY THEM. (ALL REPRESENTATIVES OF THE SUBMITTING ORGANIZATIONS MUST SIGN THIS APPLICATION.)
