

# LET'S GET THE LEAD OUT TOGETHER!

The City needs your help finding the lead pipes  
in all of Troy's homes by 2024.

To report your water service line, visit [troyny.gov/lead](http://troyny.gov/lead) or scan the QR code.

Need help identifying your service? Email [maps@troyny.gov](mailto:maps@troyny.gov) or call 518-237-0343.

Whether your service is copper, lead, or something else, we want to hear from you.

Grant funding may be available if you have a lead service line and want to replace  
your portion.

**TROY** | **NY**  
Est. 1816

The City of Troy Department of Public Utilities (DPU) found high levels of lead in drinking water in some homes. Lead can cause serious health problems. For more information please call DPU at 518-237-0343 or visit [troyny.gov/lead](http://troyny.gov/lead).

Help us find the lead pipes in all of Troy's homes by 2024. To report your water service line, visit [troyny.gov/lead](http://troyny.gov/lead) or scan the QR code. Need help identifying your service? Email [maps@troyny.gov](mailto:maps@troyny.gov) or call 518-237-0343.
