

A photograph of a park walkway with modern light poles, trees, and a river in the background. The walkway is paved with light-colored concrete and runs diagonally from the bottom left towards the upper right. To the left of the walkway is a grassy area with a few small trees. To the right is a river with a metal fence separating the walkway from the water. Several tall, modern light poles with horizontal lamp heads are spaced along the walkway. Large, leafy trees are in the background, and the sky is bright and hazy.
