Department of Public Utilities

25 Water Plant Road | Troy NY 12182

518-237-0438 | troydpu.org

Update: April 28, 2017

Work associated with the Water Transmission Line Replacement Project continued northward on 5th Avenue. Drivers are asked to exercise caution and observe all posted road closure signage.

Operations on the 30-inch water main at 115th Street and 6th Avenue resulted in a valve malfunction, causing a limited amount of water to leak out to the roadway. Department of Public Utilities is aware of the issue. Parts have been ordered to repair the faulty valve. This is a common issue with water transmission repair and not indicative of a larger issue with the water main itself.

For more information or questions pertaining to the Water Transmission Line Replacement Project, please contact the City of Troy Department of Public Utilities at (518) 237-0319 or (518)-237-0241 (after hours).
