

BOIL WATER ADVISORY (LIFTED)

Loss of pressure in the portions City of Troy Water System between Congress St and Frear Park Rd.

SAMPLES WERE TAKEN AND PROCESSED ACCORDING TO NEW YORK STATE DEPARTMENT OF HEALTH REGULATIONS AND YOUR WATER IS SAFE TO DRINK.

CUSTOMERS OF THE CITY OF TROY PUBLIC WATER SUPPLY IN THE AREA BETWEEN CONGRESS ST AND FREAR PARK ROAD THAT WERE AFFECTED BY THE EMERGENCY WATER MAIN SHUT DOWN ARE HEREBY ADVISED BY THE CITY OF TROY DEPARTMENT OF PUBLIC UTILITIES THAT THE BOIL WATER ADVISORY THAT WAS ISSUED ON OCTOBER 16, 2017 HAS BEEN LIFTED.

**Chris Wheland, Superintendent of Public Utilities
Department of Public Utilities
City of Troy, New York**

At about 6:00 pm on October 16, 2017, portions of the water system between Congress St and Frear Park Road lost pressure due to an emergency shutdown of a water main for maintenance purposes. When the distribution pipes and mains lose pressure it increases the chance that untreated water and harmful microbes may enter the system.

After sampling and processing it has been determined that your water is safe to drink and the boil water advisory has been lifted.

What was done?

The maintenance of the system has been completed. The system has been flushed and put back into service. Routine sampling and testing of the water was conducted and the water is determined to be safe to drink.

For more information, please contact the City of Troy Department of Public Utilities at 518-237-0319 or 518-237-0611 after hours or the Rensselaer County Department of Health at 518-270-2632.
