III. Consultant Fees

Mr. Strichman explained that the city is putting in a Consolidated Funding Application to complete the design work for the missing portion of the riverfront trail located between Jay Street and 111th Street. A quote was received from Lindsey Zefting who was previously with Alta planning and has done work for the city on several projects. For disclosure purposes, when Alta Planning closed their regional office, she started working under Verity Engineering which is owned by the city’s part time Engineer. Also, our board member, Latasha Gardner works in the Engineering Department and will abstain from the vote today. The cost of preparing the application will not exceed \$3,000 and will include a conceptual design of the trail and submission of the CFA application. Mr. Chiappone asked if the city has a grant writer. Mr. Strichman advised no. Mr. Watson asked for some more detail on the CFA process. Mr. Strichman explained that it is the process set up for all grant applications to go through when requesting state funding. It was intended to streamline the process and avoid overlapping.
